PROFESSIONAL SUMMARY

Computer Engineering student graduating in 2027 with hands-on project experience in web application development, Flutter, Firebase, and data analysis. Interested in frontend development, responsive user interfaces, accessible design, and building practical, user-focused applications.

TECHNICAL SKILLS

Web & UI: HTML5, CSS3, JavaScript, responsive design fundamentals
Programming: Dart, Python, Java, C, SQL
Frameworks & Data: Flutter, Firebase Authentication, Firebase Realtime Database, JSON
Tools & Platforms: VS Code, Android Studio, Git, GitHub, GitLab, Netlify
Core Concepts: Object-Oriented Programming, problem solving, data structures, UI usability

EDUCATION

Bachelor of Engineering in Computer Engineering — Gharda Institute of Technology, Lavel–Khed
Expected Graduation: 2027 | CGPA: 7.61

PROJECTS

eQMS 360 — Electronic Quality Management System

- Project repository: GitLab — eQMS 360
- Quality-document management project focused on organizing and accessing controlled quality documents.
- Repository provided for review of the project and available implementation details.

Repository: GitLab

Student Achievement Tracker

- Web app for students to record and manage certificates, NPTEL courses, and competition achievements.
- Firebase Authentication registration/login, dashboard totals and recent achievements, and add/edit/delete/search for records.
- Each student sees only their own records.
- Live demo: Student Achievement Tracker

Tech Stack: HTML, CSS, JavaScript, Firebase Authentication, Firebase Realtime Database, Netlify **Engineering**

College Recommendation & Comparison App

- Developed a Flutter app to help students discover, search, filter, and compare engineering colleges.
- Used structured college data to support college exploration and comparison.

Tech Stack: Flutter, Dart, Firebase, JSON

Walmart Sales Performance Analysis

- Analyzed 6,000+ weekly sales records to explore revenue trends, holiday impact, and top-performing stores.
- Used data cleaning, grouping, and visualization to summarize findings.

Tech Stack: Python, Pandas, NumPy, Matplotlib

INTERNSHIP EXPERIENCE

Data Science & Machine Learning Intern | *Vinayak IT Solutions | 1 Jun – 31 Aug 2026*

- Completed a three-month internship program in Data Science & Machine Learning; developed exposure to the internship domain.

Trainee Developer — Python Development | *iBase Electrosoft LLP | 21–28 Jul 2025* •
Completed a 7-day (8-hour) internship with practical exposure to Python Development.

WORKSHOPS & CERTIFICATIONS

Design Thinking Workshop — ISRC | *21 Aug 2024*

- Received a Best Performer certificate for creativity, innovation, and problem-solving during the workshop.

AI for Students: Build Your Own Generative AI Model | *NxtWave | 3 Aug 2025*

- Participated in a workshop led by AI expert Abhinav Devaguptapu.

Business Analysis & Process Management | *Coursera*

STRENGTHS

Analytical Thinking • Problem Solving • Quick Learner • Logical Reasoning • Team Collaboration
